Africa is My Witness

As the world undergoes daily transformations through the application of technoscience to every aspect of life, science fiction has become an essential mode of imagining the horizons of possibility. However much science fiction texts vary in artistic quality and intellectual sophistication, they share in a mass social energy and a desire to imagine a collective future for the human species and the world. At this moment, a strikingly high proportion of films, commercial art, popular music, video and computer games, and non-genre fiction have become what Csicsery-Ronay calls science fictional, stimulating science-fictional habits of mind. We no longer treat science fiction as merely a genre-engine producing formulaic effects, but as a mode of awareness, which frames experiences as if they were aspects of science fiction. The Seven Beauties of Science Fiction describes science fiction as a constellation of seven diverse cognitive attractions that are particularly formative of science-fictionality. These are the “seven beauties” of the title: fictive neology, fictive novums, future history, imaginary science, the science-fictional sublime, the science-fictional grotesque, and the Technologiade, or the epic of technosocience’s development into a global regime.

This handbook offers diverse perspectives on queer Africa, incorporating scholarly contributions on themes that reflect and inflect the trajectories of queer contributions to African studies within and outside academia. The Routledge Handbook of Queer African Studies incorporates a range of unique perspectives, reflecting ongoing struggles between regimes of inclusion and those of transformation premised upon different relational and reflexive engagements between queer embodiment and Africa's subjectivities. All sections of this handbook blend contributions from public intellectuals and practitioners with academic reflections on topics not limited to neoliberalism, social care, morality and ethics, social education, and technology, through the lens of queer African studies. The book renders visible the ongoing transformations and resistance within African societies as well as the inventiveness of queer presence in negotiating belonging. This handbook will be of interest to students and scholars of gender and sexuality in Africa, queer studies, and African culture and society.

Way Back Home
Dubbed by his fellow Futurists the "King of Time," Velimir Khlebnikov (1885-1922) spent his entire brief life searching for a new poetic language to express his convictions about the rhythm of history, the correspondence between human behavior and the "language of the stars." The result was a vast body of poetry and prose that has been called hermetic, incoprehensible, even deranged. Of all this tragic generation of Russian poets (including Blok, Esenin, and Mayakovsky), Khlebnikov has been perhaps the most praised and the more censured. This first volume of the Collected Works, an edition sponsored by the Dia Art Foundation, will do much to establish the counterimage of Khlebnikov as an honest, serious writer. The 117 letters published here for the first time in English reveal an ebullient, humane, impractical, but deliberate working artist. We read of the continuing involvement with his family throughout his vagabond life (pleas to his smartest sister, Vera, to break out of the mold, pleas to his scholarly father not to condemn and to send a warm overcoat); the naive pleasure he took in being applauded by other artists; his insistence that a young girl's simple verses be included in one of the typically outrageous Futurist publications of the time; his jealous fury at the appearance in Moscow of the Italian Futurist Marinetti; a first draft of his famous zoo poem ("O Garden of Animals!"); his seriocomic but ultimately shattering efforts to be released from army service; his inexhaustibly courageous confrontation with his own disease and excruciating poverty; and always his deadly earnest attempt to make sense of numbers, language, suffering, politics, and the exigencies of publication. The theoretical writings presented here are even more important than the letters to an understanding of Khlebnikov's creative output. In the scientific articles written before 1910, we discern foreshadowings of major patterns of later poetic work. In the pan-Slavic proclamations of 1908-1914, we find explicit connections between cultural roots and linguistic ramifications. In the semantic excursuses beginning in 1915, we can see Khlebnikov's experiments with consonants, nouns,
and definitions spelled out in accessible, if arid, form. The essays of 1916-1922 take us into the future of Planet Earth, visions of universal order and accomplishment that no longer seem so farfetched but indeed resonate for modern readers.

Collected Works of Velimir Khlebnikov: Letters and theoretical writings

Prophecy was a wide-spread phenomenon in the ancient world - not only in ancient Israel but in the whole Eastern Mediterranean cultural sphere. This is demonstrated by documents from the ancient Near East, that have been the object of Martti Nissinen’s research for more than twenty years. Nissinen's studies have had a formative influence on the study of the prophetic phenomenon. The present volume presents a selection of thirty-one essays, bringing together essential aspects of prophetic divination in the ancient Near East. The first section of the volume discusses prophecy from theoretical perspectives. The second sections contains studies on prophecy in texts from Mari and Assyria and other cuneiform sources. The third section discusses biblical prophecy in its ancient Near Eastern context, while the fourth section focuses on prophets and prophecy in the Hebrew Bible/Old Testament. Even prophecy in the Dead Sea Scrolls is discussed in the fifth section. The articles are essential reading for anyone studying ancient prophetic phenomenon.

**Joseph Campbell: A Fire in the Mind**

Conversations on shamanism and mind-altering plants by filmmaker Jan Kounen, anthropologist Jeremy Narby, and writer/filmmaker Vincent Ravalec • Explores how ayahuasca and iboga are tools for communicating with other life-forms • Offers insights into the role this indigenous knowledge can play in solving the current problems facing the world In the Amazon, shamans do not talk in terms of hallucinogens but of tools for communicating with
other life-forms. Ayahuasca, for example, is first and foremost a means of breaking down the barrier that separates humans from other species, allowing us to communicate with them. The introduction of plant-centered shamanism into the Western world in the 1970s was literally the meeting of two entirely different paradigms. In The Psychotropic Mind, three of the individuals who have been at the forefront of embracing other ways of knowing look at the ramifications of the introduction into our Western culture of these shamanic practices and the psychotropic substances that support them. With rare sincerity and depth, noted anthropologist Jeremy Narby, filmmaker Jan Kounen, and writer/filmmaker Vincent Ravalec explore the questions of sacred plants, initiations, hallucinogens, and altered states of consciousness, looking at both the benefits and dangers that await those who seek to travel this path. Focusing specifically on ayahuasca and iboga, psychotropic substances with which the authors are intimately familiar, they examine how we can best learn the other ways of perceiving the world found in indigenous cultures, and how this knowledge offers immense benefits and likely solutions to some of the modern world’s most pressing problems.

The White Giraffe

Credo Mutwa is a black African, a practicing witchdoctor- and a writer who has been called 'the Homer of Africa.' A witchdoctor is part physician, part poet, part library; he learns the oral traditions of Africa as handed down through generations receding into prehistory. My people, My Africa is thus that rare thing: an African history and ethnography of southern Africa, from the ancient legends- how the white, Greek-like Na-Iti subjugated Africa thousands of years ago. Credo Mutwa documents the effects the whites have had on his people, including how the Europeans arrogant refusal to acknowledge the African customs and taboos alienated the
blacks, and moreover how they were needlessly humiliated.

Kimathi Tito has it all. As a child of the revolution, born in exile in Tanzania, he has steadily accumulated wealth and influence since arriving in South Africa in 1991. But even though everything appears just peachy from outside the walls of his mansion in Bassonia, things are far from perfect for Comrade Kimathi. After a messy divorce, accelerated by his gambling habit and infidelities, he is in danger of losing everything. And now, to top it all, he's seeing ghosts. Sometimes what happens in exile doesn't stay in exile. A caustic critique of South Africa's political elite from the author of Dog Eat Dog and After Tears (both recently reissued).

Stanton. the Dominant Wives and Other Stories

In this captivating, suspenseful memoir, white lion conservationist Linda Tucker describes her perilous struggle to protect the sacred white lion from the merciless and mafia-like trophy-hunting industry, armed only with her indomitable spirit and total devotion. Her story begins in 1991 with a heart-stopping misadventure in the Timbavati Reserve of South Africa. Tucker—then a successful advertising executive—and a group of fellow travelers found themselves surrounded by a pride of angry lions. There was no way out, night had fallen, and the battery in their only flashlight was beginning to flicker. Miraculously, a local medicine
woman, with two youngsters in tow, passed, trancelike and fearless, through the lions and escorted them all to safety. For Tucker, that life-threatening experience became a life-changing one. She abandoned her career, left Europe, and returned to Timbavati to track down the medicine woman who had saved her: Maria Khosa. Upon seeing Tucker again, Khosa only smiled and said, “What took you so long?” She had been expecting her, and there was so much to do. Under Khosa’s shamanic tutelage, Tucker learned of her sacred destiny: to be the “keeper of the white lions,” believed to be angelic beings sent to Earth to save humanity at a time of crisis. Khosa also prophesized that the queen of the white lions—the embodiment of the mother of Ra, the sun god—would soon be born, on a day and in a place considered holy by Westerners. On December 25, 2000, in the little South Africa town of Bethlehem, a snowy white lion cub, Marah, was born. From the moment of her first meeting with Marah, Tucker’s story immediately takes off into battle, as she dedicates her every waking moment to prying Marah and her siblings from the grips of the trophy-hunting industry. Compellingly written in the intimate style of a journal, Tucker describes with unflinching honesty her fears, doubts, hopes, and dreams, all the while unfolding for us an unforgettable tale of adventure, romance, spirituality, and most of all, justice.

Zolar's Book of Dreams, Numbers, and Lucky Days

Song of the Stars

From the Preface: The title for this collection was the title of a course in literary criticism that I gave for many years at Bennington College. And much of the material presented here was used in that course. The title should serve well to convey the gist of these various pieces. For all of them are explicitly concerned with the attempt to define and track down the implications of the term "symbolic action," and to show how the marvels of literature and language look when considered form that point of view.

The Spiritual Quest

Emperor Haile Selassie was an iconic figure of the twentieth century, a progressive monarch who ruled Ethiopia from 1916 to 1974. This book, written by a former state official who served in a number of important positions in Selassie’s government, tells both the story of the emperor’s life and the story of modern Ethiopia. After a struggle for the throne in 1916, the young Selassie emerged first as regent and then as supreme leader of Ethiopia. Over the course of his nearly six-decade rule, the emperor abolished slavery, introduced constitutional reform, and expanded educational opportunity. The Italian invasion of Ethiopia in the 1930s led to a five-year exile in England, from which he returned in time to lead his country through World War II. Selassie was also instrumental in the founding of the Organization of African Unity in 1963, but he fell short of the ultimate goal of a promised democracy in Ethiopia. The corruption that grew under his absolute rule, as well as his seeming indifference to the famine that gripped Ethiopia in the 1970s, led finally to his overthrow by the armed forces that he had
created. Haile Selassie was an enlightened monarch in many ways, but also a man with flaws like any other. This short biography is a sensitive portrayal of Selassie as both emperor and man, by one who knew him well.

**The Psychotropic Mind**

**Dreamcatching**

Offers a rare view into the world of a Zulu shaman • Includes 14 Zulu myths as told by a traditional Zulu story keeper • Reveals Zulu shamanic practices, including healing techniques, dreamwork, oracles, prophecy, and interactions with star beings In this rare window into Zulu mysticism, Vusamazulu Credo Mutwa breaks the bonds of traditional silence to share his personal experiences as a sangoma—a Zulu shaman. Set against the backdrop of post-colonial South Africa, Zulu Shaman relays the first-person accounts of an African healer and reveals the cosmology of the Zulu. Mutwa begins with the compelling story of his personal journey as an English-trained Christian schoolteacher who receives a calling to follow in his grandfather’s footsteps as a shaman and keeper of folklore. He then tells the stories of his ancestors, including creation myths; how evil came to the world; the adventures of the trickster god Kintu; and Zulu relations with the “fiery visitors,” whom he likens to extraterrestrials. In an attempt to preserve the knowledge of his ancestors and encourage his vision of a world united in peace
and harmony, Mutwa also shares previously guarded secrets of Zulu healing and spiritual practices: including the curing power of the sangoma and the psychic powers of his people.

My People

The Oversoul Seven Trilogy is one of the most imaginative tales ever written. Inspired by Jane Roberts’ own experiences with the Seth Material, it explores life, death, time and space, providing a fascinating and provocative perspective on the nature of reality. In The Education of Oversoul Seven, Seven learns to communicate with four of his “incarnations” whose lives are separated by centuries, yet who also co-exist. In The Further Education of Oversoul Seven, the adventure continues with Seven facing new lessons as his human incarnations struggle with the problems of sanity, free will, and even godhood. In Oversoul Seven and the Museum of Time, Seven journeys to the Museum of Time in search of the “Codicils,” which are eternal truths that bring about the greatest opportunities for vitality, understanding, and fulfillment. The adventures of Oversoul Seven are at once an intriguing fantasy, a mind-altering exploration of our inner being, and a vibrant celebration of life.

Prophetic Divination

Today the general wealth of social life finds itself confronted by mutations in the mechanisms of control, from the proliferation of capitalist logistics through governance by credit and management of pedagogy. Working from and within the social poesis of life in the undercommons Moten and Harney develop and expand an array of concepts.

Language As Symbolic Action

Explores the powers and wisdom of sacred White Spirit Animals • Looks in-depth at the lessons of the major White Spirit Animals: the White Bear, White Lion, White Elephant, White Wolf, and White Buffalo • Explains how to use shamanic dreaming and trans-species telepathy to communicate with these great spiritual teachers • Reveals how White Spirit Animals are calling humanity to restore balance, respect, reverence, and honor to protect our animal kin, ourselves, and the earth Beautiful rarities of nature, all-white animals are held sacred by many indigenous cultures and offer deep wisdom to all who will listen. In addition to the White Buffalo, there are other revered white animals, such as the White Wolf, White Lion, White Elephant, and White Bear. Each of these White Spirit Animals belongs to a species at the apex of their ecosystem, meaning the environment in which they live will unravel without them. Speaking through ancient and modern prophecy and the many humans who communicate with them, these White Spirit Animals are urgently calling to humanity to restore balance and
protect our animal kin, ourselves, and the earth. Combining sacred elder lore, science, and her own telepathic dreams, Zohara Hieronimus looks at the special role played by White Spirit Animals in spiritual traditions and prophecy around the globe, where they are seen as guardians of animal wisdom, each with a special purpose and gift. She reveals how they have collaborated with humanity since the last ice age, inspiring spiritual practices and conferring shamanistic powers, and are considered the stewards of the great spiritual transformations that occur during transitional times. Sharing the waking vision of White Spirit Animals that called her to write this book, and their message of CPR for the earth--conservation, preservation, and restoration--she explains how to use shamanic dreaming and trans-species telepathy to communicate with these great spiritual teachers. Exploring each one of the major White Spirit Animals--White Buffalo, White Lion, White Elephant, White Wolf, and White Spirit Bear--and the cultures in which they are honored, the author shows, for example, how the White Buffalo is called a harbinger of peace and abundance by many Native American tribes and the White Bear, the great earth healer, teaches us about nurturance and patience. As a bridge between the spiritual and physical worlds, between humans and animals, White Spirit Animals are calling us to open our hearts to the wild, to the sacredness of the wind, the water, the earth, and dream a new world into being to heal our own personal and collective wounds and restore the earth to balance.
